English: Fluent    Chinese: Native language

## MY CAREER SO FAR

I started playing soccer when I was 9 years old. I have been in China for 7 years of semi-professional soccer training to study and played soccer. I can be Center attack midfield, Center defense midfield, or Striker in the team. Now I want to join a soccer club team as it is good to join from an early age. I have taken part in the Hubei Province Soccer U15 Team Match Season when I was in the No.3 High School Soccer U18 team. I played the Center attack midfield to help our team got third place. I finished the season with 9 Goals. As a Center attack midfield, the most important point was to control the soccer ball and the tempo of the game. I always tried the best to improve myself and help the team. And I also can assist other teammates get the goals.

## RECOMMENDATIONS

**Bing Yao** The coach of No.3 High school U18 team Hubei FC

“Yang Chenyu has a strong ability to learn and is good at dealing with teammates. In the game, he can score goals and assists in many ways to help the team win. Responsibility and respect for football allow him to overcome all obstacles. He can serve as an attacking midfielder or a defensive midfielder. Balanced offensive and defensive, good at controlling the pace of the game. All in all, his performance is always very worth looking forward to, and I am very honored to be his coach.”

**Peng Hu** The coach of Science Academy FC U18 team

“Although I only had a year with Yang Chenyu, I was amazed at the talent he showed and the seriousness of the game. He can improve the enthusiasm of his teammates all the time. Whether on the defensive or offensive, as a midfielder... He is all qualified. I used to hope that he can stay on my team, but he personally wants to go to a foreign league. I think his modesty and vitality can overcome language barriers and actively integrate into the team.”
